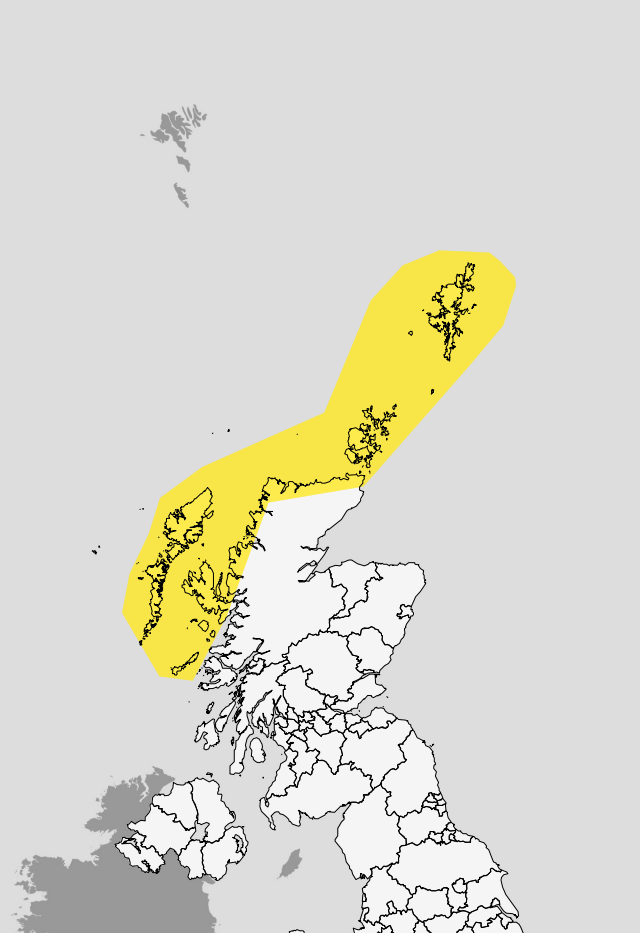
Wind

Between
08:00 Fri 30 Sep 2022 and
15:00 Fri 30 Sep 2022



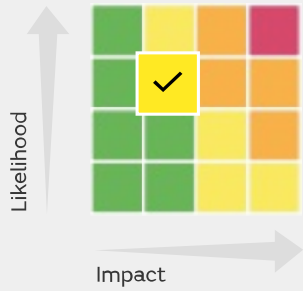
A spell of very windy weather is expected to affect the Western then Northern Isles of Scotland on Friday.

What to expect

- Some delays to road, rail, air and ferry transport are likely
- It's likely that some coastal routes, sea fronts and coastal communities will be affected by spray and/or large waves
- Delays for high-sided vehicles on exposed routes and bridges likely

Further details

A deep area of low pressure to the far north and northwest of Scotland will push active fronts across the UK on Friday, bringing strong winds to the Western then Northern Isles of Scotland. The strongest winds are likely to be the southerlies ahead of the front, with gusts of 65 to 70 mph in coastal parts and perhaps 75 mph around the Northern Isles.



Medium likelihood of low impacts
